📧 pudasainishreekrishna1@gmail.com

Energetic and driven IT enthusiast, adept at leveraging a diverse skill set honed through the recent completion of a rigorous 3-month bootcamp in frontend development and prior mastery of the MERN stack. With a solid foundation as a seasoned medical technician at Birendra Military Hospital for over 7 years, coupled with academic achievements including dual Master's degrees in Public Administration and Political Science.

Experience

MERN Stack Developer   11/2022 -08/ 2023
Dursikshya Education Network

- I successfully completed the MERN Stack Development course at Dursikshya Education Network, gaining comprehensive knowledge and practical skills in full-stack web development.
- Developed and deployed an E-commerce website and Fruit Shop application, showcasing proficiency in front-end and back-end development.
- Implemented authentication and authorization features using JWT (JSON Web Tokens), enhancing security measures for user data.
- Maintained thorough documentation for codebase, APIs, and project specifications to facilitate seamless collaboration and future enhancements.

Frontend Developer   11/2023 -01/ 2024
PROSHORE NEPAL

- Completed an intensive 3-months Bootcamp in Frontend Development at Proshore Nepal, mastering cutting-edge technologies and methodologies.
- Leveraged Git and GitHub for version control, managing branches, pull requests, and resolving merge conflicts effectively.
- Designed intuitive user interfaces using Figma, focusing on UI/UX principles to deliver a seamless user experience.
- Utilized Formik and Yup validation for efficient form handling, ensuring data integrity and user experience.
- Collaborated with team members through effective communication, contributing to successful project completion.

Medical Technician   08/2016 -05/ 2023
Shree Birendra Military Hospital

- Extensive knowledge of healthcare information management systems (HIMS).

Projects

- Developed an e-commerce website using MERN stack, Bootstrap, and Material-UI.
- I created the 'Skillshore' Quiz App during a 3-month Bootcamp, employing Tailwind CSS, TypeScript, RTK Query, Redux , Formik, and Yup validation.
- Executed various small-scale projects for practice, refining skills and exploring new technologies in the realm of web development.
- designed an e-commerce interface with Redux JS and React Bootstrap for an optimal user experience.
- I have created a stunning professional portfolio website using **Next.js**, **Tailwind CSS**, and **Framer Motion**. Features I've Implemented: Responsiveness- Ensured the website is fully responsive across all devices. Framer Motion- I added smooth and interactive animations with Framer Motion. Tailwind CSS- I styled my portfolio using utility-first CSS with Tailwind. Dark Mode- I implemented a sleek dark mode for a better user experience. Image Optimization: I optimized images for better performance using Next.js. Check out my visually appealing and highly optimized portfolio!

Skills

- React.JS
- CSS 3
- Bootstrap
- Mongo DB
- Git & GitHub
- HTML5
- Express.JS
- Postman
- Redux
- Next js
- Tailwind CSS
- UI/UXDesign (Figma)
- TypeScript
- JavaScript
- Material UI
- React Bootstrap
- Node.JS
- Redux Toolkit
- Formik

Soft Skills

- Effective Communication
- Team Collaboration
- Adaptability
- Analytical Thinking
- Creative
- Problem Solving
- Domain Knowledge in Medical ,Legal ,Political and Administration
